The UHSAA Board of Trustees has determined through a motion that catastrophic insurance will continue for the 2025-2026 school year. Member schools will pay the full catastrophic premium and then receive a 100% reimbursement from the UHSAA Foundation.

The Board of Trustees will evaluate in May what percentage of reimbursement will be provided to member schools in the future. The UHSAA and its Foundation have returned nearly two million dollars to UHSAA member schools during the past 15 years.
